DETAILED ACTION

This action is in response to the Pre-Brief Conference Request received on 16 March 2006 in which claims 1-4, and 6-9 are pending.

Reasons For Allowance

The following is an examiner's statement of reasons for allowance:

With respect to independent claims 1, 3, and 6, the nonobvious improvement comprises a hearing instrument, comprising: a housing, the housing comprising inside and outside surfaces and an opening for an electronics module; and an electronics module for housing, comprising: insertion into the opening of the hearing instrument generally parallel planar upper and lower surfaces; a peripheral surface, located between the upper and lower surfaces and oriented generally perpendicular thereto, the peripheral surface conforming to the opening in the housing; a door and hinge; and a tab in the vicinity of the hinge, the tab comprising a portion protruding outwardly from the module and having an orientation generally perpendicular to the peripheral surface, and comprising an upper surface generally coplanar with the lower surface of the module.

And for these reasons in conjunction with the other functional language recited in the claims, the instant application is found to be direct to a nonobvious improvement over the invention patented in Patent Number: 5,347,584 (Narisawa).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
